BELUGA GOLD LINE

Luxury and gastronomy – The perfect match

Beluga Gold Line is offered in a limited distribution of numbered bottles. This perfectly balanced, majestically noble vodka is the fruit of a continuous artistic quest by our technologists, tasters and master blenders.

All the ingredients used in Beluga Gold Line – essentially, water from the purest artesian wells of Siberia, combined with the famous malt spirit produced by Beluga – pass through five rounds of filtering.

Ageing: 90 days.

The taste is softened with the addition of lactose, rice essence and Rhodiola rosea extract, so that the drinker will experience every nuance of the vodka's flavour, right down to those that are barely perceptible – the most subtle and unfathomable.

The exceptional cork is made of environmentally friendly materials and sealed with wax. Each bottle comes with an elegant hammer to help remove the wax from the cork.

Beluga Gold Line is the embodiment of opulence and luxury.

Beluga Gold Line enjoys a distinguished place in the world of high gastronomy. Legendary chef Anatoly Komm – the only Russian chef to make the prestigious “San Pellegrino World’s 50 Best Restaurants” list – has designed a special gourmet menu to harmonise with the full-bodied taste of Beluga Gold Line.

Beluga. Made with pride.

Proof: 40°

Packing: 6-bottle case
